Style, Reliability and Value

Possibly one of the most cost effective Care Beds on the market, the *Invacare[®] Alegio[®]* provides exceptional performance and reliability with a modular price structure to suit a range of budgets and requirements. This robust bed has an extensive height range, providing optimal conditions for both client and carer. Weighing in at only 60 kg, the **Alegio[®]** is straightforward to transport and assemble, saving valuable installation time. Manufactured under *Invacare[®]*'s stringent quality and safety standards, the **Alegio[®]** is backed up by a 3 year warranty. All models are electrically height adjustable, and the mattress platform can be tailored to suit the level of support required.

3 year warranty

➤ **The Original Alegio® Bed**

Scandinavian designed and manufactured to a high quality, the *Invacare® Alegio®* is a genuinely cost effective solution for Nursing and Residential Care. Its uncomplicated functionality and design exceeds both CE marking requirements as well as the UK Nursing Home standards for adjustable beds, as specified by the Department of Health.

➤ **Designed for Patient Care**

Its extensive height range (36 - 80 cm) makes it easy to use for both carer and client, allowing for greater accessibility for day to day care and transfers. All beds in the range feature a height adjustable function. All electrical features are operated by a colour coded, ergonomic hand control, which also features a lock function. A wide range of accessories and options are available to complement the *Alegio®s* functional design.

➤ **Robust and practical**

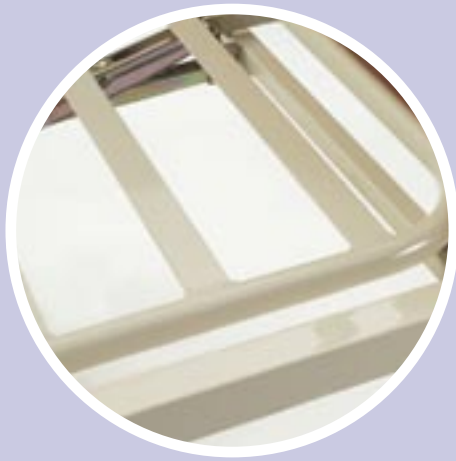

Assembly and dismantling of the bed is very simple with slide-in or lock-in features and no tools are required. All this can be done by one person, making this an exceptionally straightforward bed to install, service and maintain. In addition, the *Alegio®* is extremely hard wearing; the bed has an epoxy coated frame, which protects against wear and tear, and enables effective cleaning.

CE

Anti-static wheels with independent braking castors.
