> Invacare® **Etude® Basic**

The Tried and Trusted Home Care Bed

The *Invacare® Etude® Basic* is a high quality, height adjustable, electric profiling bed that is designed to meet the needs of the modern Community environment. Complete with a four section profiling mattress platform* and combined with a dual height range of 33 - 73 or 40 - 80 cm, the **Etude® Basic** provides increased comfort for the client and an enhanced working environment for the carer.

* 3 section version also available

3 year warranty

➤ Dignity & Independence

The *Invacare® Etude®*'s extensive height range makes getting in and out of bed easier. The bed is supplied complete with cotsides as standard, and can be fully adjusted to suit patient needs using the ergonomic hand control, which features light touch push buttons. A range of accessories are available such as support handles to provide additional assistance when moving in and around the bed. In addition an optional 'Soft Control' can be used to synchronise both head section and knee break profiling.

➤ Easy Handling & Storage

Portability and storage are key benefits of the *Etude®*. Its simplistic design allows easy assembly and dismantling without tools, and the process can be safely and comfortably managed by one person (each section weighs less than 25 kg). The bed ends can be easily attached to the transport unit making the *Etude®* lightweight and manoeuvrable for handling and storage.

➤ Approved Strength & Stability

Probably one of the most robust Community beds on the market, the *Etude®* satisfies all the requirements laid down by the European Standard for Nursing Beds EN1970, and carries the official blue stamp from TÜV (German Safety Standards Institute) for its strength, safety and stability. External approval is complemented by *Invacare®*'s stringent demand for consistent high quality throughout. Internal testing, quality control and a continuous improvement environment ensure excellence in the *Etude®*'s functionality, quality and safety. *Invacare®* is ISO 9001 and ISO 13485 accredited.

Features and Options

Scala Basic
Standard siderail for *Invacare® Etude® Basic* - easy to operate for both client and carers.

Scala Medium or Scala Decubi
Optional siderails increased in height to accommodate mattress sizes up to 27 cm deep, offering additional safety.

Support Handles
Extra help for the patient getting in and out of bed. Available in 5 different sizes.

Mattress Extension Support
Allows the mattress platform to be extended by 10 cm or 20 cm to suit many size requirements.

Curled cables for easy handling
The use of curled cables helps to avoid leads becoming trapped within sections whilst profiling.

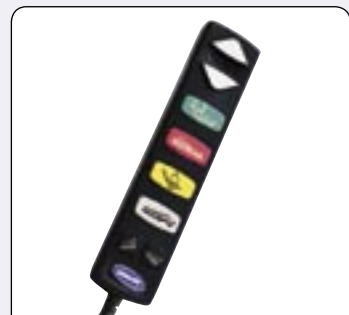

Easy Maintenance Motors
Motors can be dis-engaged without the need for tools; cabling between the control unit and the motor is easy to change.

Double Height Positions on Bed Ends
Designed to suit the carers environment and equipment needs, the built-in, double-brackets offer the choice of height ranges of 33 - 73 cm or 40 - 80 cm.

Complete Care - Bed and Mattress Package
The *Invacare® Softform®* pressure reducing mattress range offers a solution to suit both budget and client requirements. Available in 'Low Risk' to 'Very High Risk' categories.*

Soft Control
Optional hand control, which allows profiling of both head section and knee break simultaneously.

* Risk of developing pressure ulcers
Please see *Invacare®*'s Home Care Catalogue for details

Features and Options

Well-Fitted Cable Network

Cables are designed to be hung on the bed frame - as a result, there are no loose cables or opportunities for cables to get tangled or trapped under the bed.

N.B. Fitted with UK plug as std.

ACP-Box

By using the ACP-box, all handset functions can be blocked. This ensures that clients cannot inadvertently operate the bed whilst the carer is not present.

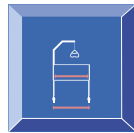

Transport unit

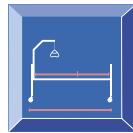

For easy storage and enhanced portability. The **Etude® Basic** can be delivered fitted to a transporter kit.
