> DOLOMITE LEGACY

The original

Reliability, quality and stability are important in a basic four wheeled walker.

The **DOLOMITE LEGACY** is precisely this; a simple, tried and trusted design that has been the inspiration for many similar walkers over the years.

Open frame design

The spacious walking area within the rollator frame is a signature feature of **DOLOMITE** products. The flip-up seat creates that space and makes it easier for the user to access objects and working surfaces. The simplicity of the rear fork design reduces the possibility of obstruction to the user's legs and feet. The comfortable, anti-slip seat is structured with a rounded rear edge and generous seating area.

The spacious basket is included as standard.

Folding

The folding handle is easily accessible without having to bend and compromise balance.

Options and Features

Backrest

Offers addition support when seated.

Kerb-climber

Makes climbing kerbs or negotiating small objects simple.

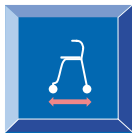

Soft grips

A softer alternative to the anatomic grips.
