

Yes, you can.®

Invacare® **Octave**® - Bariatric Bed

Setting New Standards in Bariatric Care

With a safe working load up to 60 Stone (385 kgs), the *Invacare*® **Octave**® is a robust yet stylish profiling bed solution that assists in the care and comfort of bariatric clients. With a fully electrical, 4-sectioned profiling mattress support as standard, the **Octave**® provides optimal comfort and support to the client, as well as an ideal working environment for the carer. The frameless construction of the mattress platform allows improved side access to the client, and the bed ends can be detached independently of the side rails for quick and easy access to both head and feet.

3 year warranty

➤ Great comfort and stylish design

The **Invacare® Octave®** is designed specifically with the bariatric client in mind. The bed frame extends to the edges of the bed base for enhanced support and ease of transfer.

An easy to use hand control allows the client to operate the bed's height and profiling function. The **Octave®**'s heavy duty motors enable a smooth and almost silent operation. The **Octave®** is a substantial bed, however its design includes all the well-known qualities of **Invacare®**'s Scandinavian design.

➤ Delivery and storage

To make delivery as easy as possible the **Octave®** is delivered on a transportation rack.

Dismounting and assembly of the **Octave®** couldn't be simpler despite the size of the bed. Furthermore the transportation rack makes it possible to economise on storage space and makes the **Octave®** very easy to move between locations.

Options & Accessories

Scandinavian Style Britt IV wooden side rail

Offers a modern style to compliment the beech finish bed ends and help to complete the **Invacare® Octave®** look.

Lifting pole

The handle can be adjusted in both height and depth, to offer support whilst re-positioning.

Extendable bedend

The bedend is extendable to offer mattress platform extension of 10 or 20 cm.

Support handle

For increased support whilst bed leaving.
