

Yes, you can.®

Invacare® **Reliant 350 Stand Assist**

A Versatile Stand Assist

Compact and manoeuvrable the *Invacare*® **Reliant 350 Stand Assist** provides easy, safe and comfortable assisted transfers for clients with care or rehabilitation needs. A maximum client weight of 158 kg (25 stone) allows a wide range of clients to be transferred from either a bed or chair with safety.

3 year warranty

Adaptable and Easy to Use

Invacare® **Reliant 350** provides additional assistance for standing or seating transfers. It features an electrically operated lift boom with three attachment points for a range of settings height. A simple lever adjustment allows the base legs to be adjusted for close access to chairs and wheelchairs. In addition, the **Stand Assist** has a non slip footplate and a height adjustable padded knee guard, for greater compatibility and security whilst transferring.

Safe and Reliable

The **Stand Assist** features a safety mechanism to prevent the sling from disengaging. Added safety features include an emergency stop button, an emergency mechanical descent system and an anti-entrapment device, (which stops the boom lowering if it meets resistance). The battery has a capacity for 40 lifts per charge and has a recharge indicator that is visual and audible. For ease of transport and storage, the **Stand Assist** can be dismantled.

Features and Options

Stand Assist Sling

Offers a comfortable and safe transfer for clients who have some weight bearing ability, but who cannot stand independently. Well padded, with non-slip material on the back. Available in 4 sizes: S, M, L & XL.

Transfer Stand Assist Sling

Enables a simple seated transfer, with additional support. Available in 4 sizes: S, M, L & XL.

24/7 use

Each lifter is delivered with 2 batteries and an independent charger. The Removable battery eliminates down time and can offer 24/7 use.
