

Invacare® | Storm⁴ Max

NEW

Much more than just a larger power chair!

The new **Storm⁴ Max** is the latest addition to the **Storm** range, designed for heavier clients. It features a longer chassis to improve weight distribution yet still provide excellent manoeuvrability outdoors or in. Extra long, sturdy armrests and legrests will support the client, especially when re-positioning themselves within the seat.

For the ultimate in driving performance and traction control, Invacare's **G-Trac™** technology is also available as an option.

Storm⁴ Max offers the same trouble free servicing that is attributable to the **Storm** range.

Yes, you can.®

Features and Options

Tilt and recline

For individual comfort and positioning the **Storm⁴ Max** offers powered tilt and recline options.

The backrest recliner has a range of 0° - 25° with a high pivot point in order to reduce shearing forces.

Ease of use

Just as the entire **Invacare Storm⁴** family is characterised by its ease of use, so is the **Max**. Batteries and electronics are easily accessible, making servicing simple. The depth of the seat can be simply adjusted in 3 steps which are indicated on the seat frame. An adapter to further reduce the seat depth is offered as an option.

Armrest

The strong and stylish armrest can be mounted in several positions and are width adjustable.

Footboard

Flip-up footboard supports various positions of the feet. It's strong enough to allow clients to reposition themselves within the seat.

Calf pads

The extra wide Max calf pads are individually adjustable in depth and angle to give optimum support.
