

TGA **Mystere**

one of the best equipped, most comfortable and technically advanced scooters you can buy and, most importantly at a price you can afford.

Go on - spoil yourself!

"When a scooter is your main means of transport, you deserve a machine that combines luxurious elegance, comfort, ease of use, style and reliability. The TGA Mystere offers all these and comes with the added bonus of the respected name of TGA for quality and service."

David Stone, Managing Director of TGA

State of the art centre console with digital touch controls for indicators, lights & horn plus four-way flashers for emergency use, combine with touch buttons and digital read out for battery condition and instant speed control. Other features including time, date and ambient temperature are also displayed on the control console. **Speed control levers** on either side of the console are designed to give forward and reverse control from either side giving up to 8mph for road use. **High visibility LED** rear lights with powerful front light that automatically dims to save power when the scooter stops. **Fully active adjustable suspension** plus contoured adjustable seat with 360° swivel makes the TGA Mystere one of the most comfortable scooters ever. **Fully automatic braking** and parking brake plus manual brake that stops the scooter and cuts the motor in case of emergency. **Electronic sleep mode** will shut the system down if accidentally left switched on when not in use.
