

The Glamorgan

The Glamorgan is a single motor wall-proximity rise and recliner with a waterfall back. Optional extras include battery back-up, anti-entrapment device, arm covers, side pocket(s), antimacassars and headroll.

A resting position can be achieved whilst maintaining good posture and weight distribution over a large contact area. The chair's in-built rise facility allows the user to be gently lifted into a standing position without strain on their limbs or joints.
