

Otto Bock®

Kimba Spring

A smooth ride up hill and down dale. The Kimba Spring reduces jolting on uneven surfaces. The spring system for the seat adjusts to the weight of the child.

The Kimba seat is individually adjustable. Various support pad and fixation systems are available for optimal positioning. The seat position adjusts conveniently from active to support position on the pushbar. The seating unit separates from the mobility base in no time. The seat can also be set to face opposite the direction of travel.

A systematic solution with practical details. The Kimba Spring weds high functionality and outstanding design, and yet is extremely light at just 15 kg.

Well sprung, practical, just right for kids.

Kimba Spring in Detail

Outdoor Mobility Bases

- Size 1 front wheels rigid or swivelling front wheels
- Size 2 swivelling front wheels
- Spring system for seat adjusts to three levels of comfort
- Attractive design - oversized aluminium tubing
- Seat tilt adjustment on pushbar
- Compact folding mechanism with automatic folding guards
