

Otto Bock®

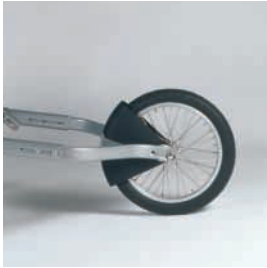

Kimba Cross

A harmonious blend of function and design. Oval-cross-section, aluminium tubing and a telescoping frame make the Kimba Cross highly functional: for example, it adapts to fit various-sized seating units. Furthermore, the Kimba Cross incorporates the Kimba seating system, permitting a wide range of positioning possibilities and individual support. The adjustable wheel base permits high stability.

Thanks to a low centre of gravity, a spring system for the seat, large pneumatic tires, and a drum brake, Kimba Cross offers a high level of security in demanding everyday situations, for easy handling even in rugged terrain. Whether indoors or out: the swivelling front wheel or the cycle trailer package extend the radius of action. – Kimba Cross: attractive and functional.

The All-Rounder for Everyday and Leisure.

Kimba Cross in Detail

Outdoor Mobility Base

- Telescoping frame fits various-sized seating units
- Spring system for the seat
- 16" front wheel, pneumatic tire, rigid, quick-lock attachment, incl. splash guard
- 18" rear wheels, quick-release axle
- Drum brake with lock option
- Height-adjustable pushbar
- Can be folded and disassembled for easy stowage
- Attractive design thanks to oval tubular frame

Kimba Multifunctional Seating Unit

- Optimal adjustability to body proportions, individual positioning thanks to support pad system and fixation possibilities, numerous possibilities for adjustment / variation of seat position

Options

- Swivelling wheel with quick-lock attachment for confined spaces
- Cycle trailer package (draw-bar with quick-lock, cycle coupling, pennant, light)
- Anti-tipper, clothing protectors
- Spoke protectors, storage bag
